The following places bear the reputation of being good fishing grounds: (1) The Parlor, a pool above Bolling Rock, straight out from Fletcher's. The water is deep and swift, and the pool bears its name because the fish are known to congregate there. (2) Middle Rock, above the Chain Bridge. It is well to arrange to have a boat taken up on the flood tide, as it is impossible to make headway against an ebb tide. (3) "The Hens and Chickens," off the point of the powerhouse near Fletcher's; water 40 to 50 feet deep and very swift. Care must be exercised. (4) Near the ladder, at the Chain bridge, opposite the branch on the Virginia side. (5) Opposite the point of Annapolis Island, along the bend of the river. Water about thirty feet deep. (6) Near the Thurston steel plant, at junction of Potomac and Eastern branch. (7) The Tidal Basin. Boats and bait may be obtained at the District of Annapolis, at the western end of the basin. (8) The Dyke between Alexandria and Mt. Vernon. Boats may be obtained near car station. (9) Occoquan, above the bridge.

The cars for "The Dyke" leave the Alexandria and Mt. Vernon station at the corner of Twelfth street and Pennsylvania avenue about every hour. It is well to take lunch along, for there is little assurance of being able to obtain any at "The Dyke."

The following places bear the reputation of being good fishing grounds: (1) The Parlor, a pool above Bolling Rock, straight out from Fletcher's. The water is deep and swift, and the pool bears its name because the fish are known to congregate there. (2) Middle Rock, above the Chain Bridge. It is well to arrange to have a boat taken up on the flood tide, as it is impossible to make headway against an ebb tide. (3) "The Hens and Chickens," off the point of the powerhouse near Fletcher's; water 40 to 50 feet deep and very swift. Care must be exercised. (4) Near the ladder, at the Chain bridge, opposite the branch on the Virginia side. (5) Opposite the point of Annapolis Island, along the bend of the river. Water about thirty feet deep. (6) Near the Thurston steel plant, at junction of Potomac and Eastern branch. (7) The Tidal Basin. Boats and bait may be obtained at the District of Annapolis, at the western end of the basin. (8) The Dyke between Alexandria and Mt. Vernon. Boats may be obtained near car station. (9) Occoquan, above the bridge.

The cars for "The Dyke" leave the Alexandria and Mt. Vernon station at the corner of Twelfth street and Pennsylvania avenue about every hour. It is well to take lunch along, for there is little assurance of being able to obtain any at "The Dyke."
